

June 14, 2024 (Day 5):

Responsive Design with Media Queries

- Topics Covered:

- What is responsive design and why it's important.
- Media queries to adapt the layout to different screen sizes (mobile, tablet, desktop).
- Common breakpoints and techniques for responsive design.

- Project Work:

Added media queries to make the portfolio site responsive. The layout should adjust for mobile screens, stacking content vertically rather than horizontally
