

June 10, 2024 (Day 1): Introduction to HTML

Topics Covered:

- Basic structure of an HTML document (`<html>`, `<head>`, `<body>`)
- Basic tags for text (`<h1>`, `<p>`, `<a>`, ``, ``, ``)
- HTML attributes like `href`, `src`, `alt`, `class`, `id`.
- Understanding the HTML document flow and semantic tags (`<header>`, `<footer>`, `<section>`).

- Project Work:

Created a basic HTML page with a header, a navigation menu, a brief introduction about myself, and a footer. Started planning the layout for a portfolio website.
