June 22, 2024 (Day 13):

React Hooks and Component Lifecycle**

- **Topics Covered:**

  - Understanding the `useEffect` hook for handling side effects (e.g., fetching data, updating the DOM).

  - Understanding component lifecycle (componentDidMount, componentDidUpdate) using `useEffect`.

- **Project Work:**

 Integrated `useEffect` in the React portfolio to fetch a list of projects from an API and display them dynamically.
