June 24 - June 30, 2024:

Finalizing Portfolio Design

- Topics Covered:

  - Combining HTML, CSS, and React to build a full-featured website.

  - Using CSS Grid or Flexbox for layout in React components.

  - Implementing media queries to ensure responsiveness.

- Project Work:

 Finalized the structure of the React portfolio site, styling the homepage, about page, and contact form. Added animations and transitions for smoother user interactions.
